

LIFE SCIENCE ACADEMY *REGENSBURG*

FROM LAB TO MARKET AN 8-WEEK PROGRAM FOR LIFE SCIENCE INNOVATORS

How does a research
topic become a product,
a spin-off, a market success?

The Life Science Academy
Regensburg shows you how
to take your research from
the lab into knowledge transfer
all the way to founding a company
and reaching the market.

LIFE SCIENCE ACADEMY

REGENSBURG

FROM LAB TO MARKET

WHAT IS THE LIFE SCIENCE ACADEMY REGENSBURG?

The Life Sciences Academy Regensburg is an eight-week program designed to equip participants with the knowledge and skills needed to translate life sciences research into successful ventures. Starting with a kick-off event, the program comprises eight 90-minute modules covering key aspects of drug development and research commercialization.

WHY PARTICIPATE?

Learn from experts in drug development, regulatory affairs, GMP production, clinical research, and startup financing, while gaining direct insights from industry leaders and founders. Network with like-minded peers, earn a certificate of completion, and take the next step in your career, all free of charge!

WHO CAN PARTICIPATE?

Whether you're a PhD student, postdoc, or master's student nearing the end of your studies, this program is tailored to help you bridge the gap between research and commercialization. It's a unique chance to explore entrepreneurship in the life sciences field.

WHEN AND WHERE?

Kick-off: January 14, 2027, at the University of Regensburg

Modules: Every Thursday at 5:00 PM, starting January 21, 2027

Format: Online or in person

◀ Information and registration
Registration deadline: December 14th, 2026

*The Life Sciences Academy Regensburg is jointly organized by
BioPark Regensburg, the University of Regensburg
and the University Hospital Regensburg.*
