

PD Dr. Jan Ulrich Becker

Institut für Allgemeine Pathologie und Pathologische Anatomie,
Uniklinik Köln

Title: tba

Jan Ulrich Becker is Head of Nephropathological Diagnostics at Cologne University Hospital and is particularly interested in data collection for and the development of diagnostic, prognostic, and theranostic machine learning models for nephropathology. This applies in particular to thrombotic microangiopathies, glomerulonephritis, and antibody-mediated rejection.

Time: **Monday, December 1st 2025**
01:00 p.m.

At: **Universität Regensburg**
Seminarraum Physiologie
VKL 4.1.29

and online via **Zoom**
